

# UNION OF EUROPEAN FORESTERS

## The only European organization of Professional Foresters

### What is UEF ?

Union of European Foresters is the European organization for all associations, societies and unions actively engaged in forestry.

### When was created UEF ?

Union of European Foresters was created in 1965 in Berlin.

### Who is member of UEF ?

UEF groups together 22 associations from 20 countries. In total, it represents 50 000 foresters of all ranks working in the forestry sector and with all kinds of forest ownerships (state, private, community).

### What are UEF aims ?

. to enhance the elements of sustainable forest management and strengthen the links between the forest sector and society.

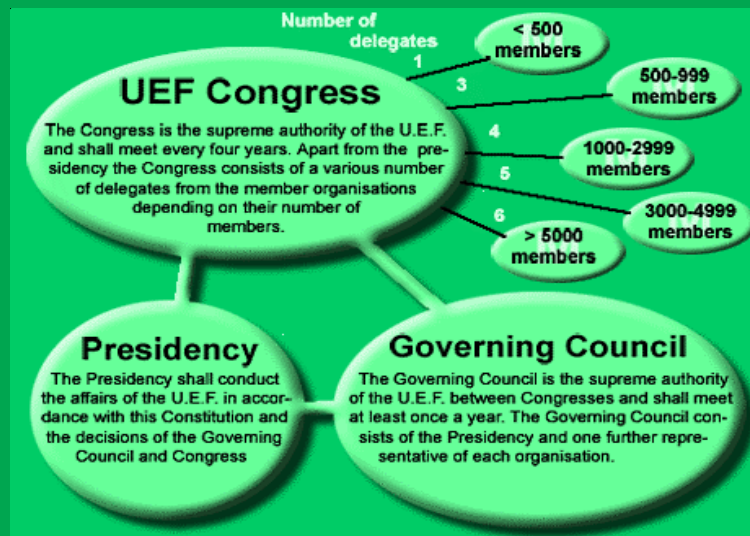

. to develop and promote at European level the professional, ethical, material and syndicalistic interests of the individual members of its member organizations.

. to develop to their full value the potential contributions from the forest sector to rural development, employment, environment and to overall sustainable development of society.

. to contribute to all attempts for a better recognition of the multifunctional role of forests and their importance in the protection and management of the natural environment.

In pursuing these aims, UEF refrains from any philosophical, political or religious considerations.

## How UEF is managed ?

## How can you contact UEF ?
